— THE THESIS

ONE HOTEL RUNS ON HEROES.

A group runs on playbooks.

Beach Enclave is headed toward group operations. Resort groups scale on systems, not only on people.

Today, BE's operational knowledge — the standards of service, the supplier relationships, the pricing instincts, the brand voice — lives inside individuals. When those people move on, it goes with them.

• WRITTEN STANDARDS

• SHARED KNOWLEDGE

• CLEAR SIGNALS

• A BRAND THAT TRAVELS

AN AI-FIRST OPERATING LAYER FOR BEACH ENCLAVE

BE Inteligência is not a product. It is an operational layer that sits across the group — codifying how BE runs, so every property, every department, every new hire inherits the same playbook.

+ DIRECT FROM YOUR BRIEF

Sales & marketing. CRM. Shopping the comp set. Repeat-guest recognition. Automated responses. Contracts.

01

CODIFY OPERATIONS

Turn tacit knowledge into cross-referenced SOPs that survive turnover.

02

SURFACE INSIGHT

Real-time dashboards replace static reports and manual monthly roll-ups.

03

ELEVATE THE TEAM

Managers equipped with AI, not replaced by it — amplified judgment.

04

ACCELERATE DECISIONS

CEO and department heads operate with an AI partner, not an inbox.
